

"Given forestry is a professional service to society, scholarships from the OSAF foundation help foster the benefits this profession yields for future generations. What this scholarship did for me is throw more fuel on my fire, helping to sight in my focus, further increasing the efficiency with which I attack the challenges in my daily academic routine, creating a positive feedback loop."

Recipient Mike Shettles*

Funding from the OSAF Foundation has enabled students from the OSU Ambassador Program to present the diverse career opportunities available in forestry, natural resources and agriculture to high school students.

"The support of professionals like you is very encouraging to each of us as we strive to be professional role models ourselves."

OREGON SOCIETY OF AMERICAN FORESTERS FOUNDATION

Nuturing Forestry *in* Oregon

OUR PURPOSE

The Oregon Society of American Foresters Foundation (OSAFF) was established in 1985 to foster improve forestry education opportunities for qualified students and to fund educational projects.

OUR GOALS

- To attract the best students to the profession of forestry.
- To improve the knowledge of Oregonians about professional forestry.

OUR FOCUS

Examples of specific projects include:

- Scholarships for students to pursue their education at accredited forestry schools in Oregon.
- Sponsoring activities to educate the public about forestry.

OSAFF vs. FORESTER'S FUND

The OSAF Foundation and the Forester's Fund are separate and unique. The Forester's Fund is a national program focused on a variety of forestry projects approved and funded by National SAF. In contrast, the OSAFF focuses within Oregon and is directed exclusively at development of future professionals and forestry education in general.
