

# Ties to the Land

Your Family Forest Heritage: Planning for an Orderly Transition

## A Facilitated Workshop on Succession Planning.

### Keeping Family Forests and Farms in the Family

This two-part, DVD-based interactive workshop explores Succession Planning — the human side of estate planning — providing effective tools families can use to decide the future of their land. Through presentations by two leading experts and practical exercises, the workshop coaches families to develop techniques and communications skills they need to address the tough issues. **HOPE IS NOT A PLAN. You will:**

- ❖ See how you can maintain family ties to the land from generation to generation
- ❖ Build awareness of the key challenges and tools to deal with them
- ❖ Clarify your values and goals
- ❖ Learn the steps to succession planning
- ❖ Learn how to hold effective family meetings
- ❖ Learn about legal and financial instruments that can support your plan

The Lane Small Woodlands Association chapter encourages ALL landowners to attend and to bring along at least one member of the next (successor) generation.
