

John,

The recent top five Capital Chapter speakers/programs in my opinion and in no particular order have been:

George Taylor, State Climatologist, speaking on global warming
Mike Cloughesy, OFRI, several times, the latest on biomass utilization
Paul Adams, OSU, a couple times, policy and the Biscuit fire controversy
Theresa Vonn, ODF, on the statewide fire risk assessment project
Public showing of, "The Greatest Good" at Chemeketa CC Auditorium

We have Hal Salwasser coming this month to speak on the "State of the College" and Marvin Brown in April to reflect on his year as SAF President, both which should be good programs!

Terry
